

Kristi Stickley, RD, LD, CHES, CSP  
Idaho Falls Community Hospital  
2327 Coronado Street  
Idaho Falls, ID 83404

Greetings,

My name is Kristi and I am the outpatient dietitian at Idaho Falls Community Hospital. I am a registered and licensed dietitian (RD, LD) and health education specialist (CHES). I see patients with a variety of health conditions to provide medical nutrition therapy. I just wanted to take a moment to introduce myself and highlight what I do.

I have lived in southeast Idaho for most of my life and love this area. You can rest assured that I am truly committed to helping ensure this community gets the best nutritional care possible. For the past year I have been working at Idaho Falls Community Hospital providing outpatient nutrition services. Previously, I worked as an inpatient dietitian on the medical floor helping patients with a wide range of health conditions implementing nutrition interventions as well as providing nutrition education including but not limited to cardiac, hepatic, renal, and diabetic education. I also am a board-certified specialist in pediatric nutrition (CSP) and have several years of experience working as a dietitian in a level III surgical NICU with cross coverage on the PICU and pediatric floors. I love working with medically complex pediatric patients providing medical nutrition therapy to promote optimal growth and development in these populations. I enjoy providing education and follow-up for patients requiring home enteral and parenteral nutrition support and would love to work with you to ensure these nutrition support patients get the help and follow up they need. As you can see, I love seeing everyone from newborns to seasoned adults to promote optimal nutrition in all stages of life, I would love the opportunity to help support your patients in an outpatient setting.

I am accepting new patients and wanted to include some materials in case you believe my services would be of value for improving your patients' health outcomes. I am an in-network provider with most major insurance companies.

I look forward to the opportunity to help support your patients. If you have any questions or would like to chat or meet in person, please don't hesitate to reach out.

Warmly,

Kristi Stickley, RD, LD, CHES, CSP
